PERSONAL PROJECTS

Betting Service

https://github.com/mlaskowski7/bettingService

A Node.js and Express-powered betting platform with a React TypeScript frontend and PostgreSQL database. Supports user authentication, bet management, and features comprehensive leaderboards.

Quiz

https://github.com/mlaskowski7/quiz

This is a fullstack quiz application with backend developed in Java Spring Framework, frontend using Vite with React.js, and Tailwind CSS for styling. The database is powered by PostgreSQL. API endpoints were tested using Postman. App has quiz creation and quiz checking functionalities.

Friends

https://github.com/mlaskowski7/friends

Friends is my fullstack social media web app, with user authorization, feed, like and comment functionalities. Backend created in python with django framework, integrated with SQLite database. Frontend created with help of Tailwind CSS, jQuery and AJAX. Sample posts images are taken from unsplash.
